

# BETTER THAN NEW

**More than a  
promise - it's  
your reputation.**

## To Rebuild or Replace? Not a simple question...

EASA member motor shops – like yours – understand that rebuilding a motor to 'better than new' requires skilled craftsmen following ANSI/EASA best practices during all phases of the repair process – including the selection of the highest quality replacement components.

## You know motors – we know brakes.

With an EMTorq replacement brake, your customer benefits from precision manufactured, CE internationally certified and field-proven brakes. EMTorq brakes are used in any application requiring reliable, safe stopping power and EMTorq interchanges Lenze, Intorq, KEB and many other metric and inch dimensioned designs...

When the choice is to REBUILD an IEC metric brake motor, make **EMTorq** a part of YOUR competitive advantage.

# EMTorq is Your IEC Metric Brake Specialist

## EMTorq stocks the BENCHMARK in all brake design

- Our brakes are interchangeable with virtually EVERY brake in the field: **Lenze, Intorq, KEB** and many other metric and inch dimensioned designs
- Torque Range:
  - Caliper Brakes up to 20,000 Nm torque
  - Disc Brakes up to 5000 Nm torque
- We stock brakes in typical bore sizes, so we can QUICKLY supply the brake you need
- Engineers on staff can assist with accurate IEC Metric brake selection

## EMTorq spring-engaged safety brakes are available in a wide variety of applications:

- |                              |                 |
|------------------------------|-----------------|
| • IEC/Metric                 | • NEMA          |
| • Washdown                   | • Marine Duty   |
| • Flameproof/Explosion Proof | • Fast Response |
| • Servo Motor                | • Caliper       |

## Options to EMTorq brakes include:

- |                               |                       |
|-------------------------------|-----------------------|
| • Tachometer/encoder mounting | • Zero backlash       |
| • Multiple disc               | • Manual hand release |
| • Micro switch sensor         | • Noise reduction     |
| • Redundant brake systems     | • UL certified        |

**CUSTOMER SPECIFIC DESIGNS**  
tailored to your specific application  
are always available.
